**APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705(d)**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Sir:

Patentees request reconsideration of Patent Term Adjustment (PTA) under 37 C.F.R. §1.705(d). The Determination of Patent Term Adjustment under 35 U.S.C. § 154(b) included with the Issue Notification dated November 18, 2009 indicates a PTA of 811 days. Patentees believe this to be an error and request the PTA to be changed to 1,141 days.

## REMARKS

The determination of 811 days is in error in that pursuant to 35 U.S.C. §154(b) the Office failed to issue a patent within three years of the actual filing date of the above-referenced application in accordance with 37 CFR §1.702(b) and failed to take certain action within the time frame specified in 37 CFR §1.702(a).

Pursuant to 37 CFR §1.703(b), Patentees are entitled to a period of patent term adjustment due to failure of the Office to issue a patent within three years after the date the corresponding application was filed under 35 U.S.C. §111(a), *i.e.*, July 14, 2007 (hereinafter "Three Year Delay"). Since the Office failed to issue the above-identified patent within 3 years after the filing date, Patentees are entitled to a period of patent term adjustment beginning on the day after the date that is 3 years after the filing date of the application, *i.e.*, July 15, 2007, and ending on the date the Office issued the patent, *i.e.*, December 8, 2009. Accordingly, the period of patent term adjustment due to the Three Year Delay by the Office is 878 days. This period of adjustment is in agreement with the period of Office delay used by the Office in calculating the patent term adjustment for the above-identified patent (see "USPTO Delay (PTO) Delay (days)" on the PTA Sheet submitted herewith as Exhibit A).

However, in addition to the patent term adjustment due to Three Year Delay, pursuant to 37 CFR §1.703(a) Patentees respectfully submit that they are also entitled to a period of patent term adjustment under §1.702(a) (hereinafter "Examination Delay"). A period of delay of 330 days due to the failure by the Office to mail an action under 35 U.S.C. §132 not later than 14 months after the filing date (*i.e.*, by February 21, 2006) (hereinafter "14 Month Delay"). As the Office failed to mail an action under 35 U.S.C. §132 until January 17, 2007, Patentees are entitled to a period of patent term adjustment beginning on the day after the date that is 14 months after the date on which the

above-referenced application was filed under 35 U.S.C. §111(a), *i. e.*, February 22, 2006, and ending on the date of mailing of an action under 35 U.S.C. §132, *i.e.*, January 17, 2007. Accordingly, the period of patent term adjustment due to the 14 Month Delay by the Office is 330 days, which is in agreement with the period calculated by the Office (see PTA Sheet submitted herewith as Exhibit A). Accordingly, Patentees are entitled to a total period of Examination delay of 330 days.

As set forth in 37 CFR §1.703(f), Patentees are entitled to a period of patent term adjustment equal to the period of delays based on the grounds set forth in 37 CFR §1.702 (hereinafter "Office Delay") reduced by the period of time equal to the period of time during which Patentees failed to engage in reasonable efforts to conclude prosecution pursuant to 37 CFR §1.704 (hereinafter "Applicant Delay"). With respect to the above-referenced application, the total period of Office Delay is the sum of the period of Three Year Delay (878 days) and the period of Examination Delay (330 days) *to the extent these periods of delay are not overlapping*. As the period of 14 Month Delay ended on January 17, 2007, prior to the first day of the period of Three Year Delay, *i.e.*, July 15, 2007, Patentees submit that these periods are not overlapping. Patentees submit the sum of these periods is 1,208 days, with no periods overlapping.

To calculate the period of patent term adjustment, the total period of Office Delay is reduced by the period of Applicant Delay, which the USPTO correctly calculated as a period of 67 days. Accordingly, Patentees submit that the correct patent term adjustment for the above-referenced application is **1,141 days**, which is the difference between the total period of Office Delay (1,208 days) and the period of Applicant Delay (67 days).

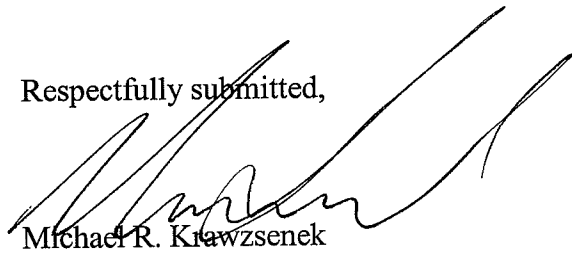

### CONCLUSION

In consideration of the events described above, Applicants believe the PTA calculation of 811 days is incorrect. As such, Applicants respectfully request reconsideration of the PTA in the following manner:

- 1) Total PTO delay should be calculated as 1,208 days;
- 2) Total Applicant delay should be calculated as 67 days; and
- 3) Total PTA should be calculated as 1,141 days.

The required fee in the amount of \$200.00 in connection with the filing of this paper is being charged to a credit card through EFS-Web concurrently with this submission. The Commissioner is hereby authorized to deduct any underpayment of fees or any additional fees required under 37 C.F.R. §§ 1.16 to 1.21 in connection with the filing of this paper from Fulbright & Jaworski Deposit Account No.: 50-1212/ESSR:085US.

Respectfully submitted,
